

## **Privacy Statement**

The protection of your personal data is important to us at Roband. We take all reasonable care to ensure that your personal data is processed safely and our data protection policies are in line with the code of conduct applicable to Roband. We process personal data collected from visitors to our website in accordance with the data protection laws of the United Kingdom. Our company website may include links to platforms of other providers to whom this data privacy statement does not apply. Roband respects your privacy and your personal data.

### **Collection and Processing of Personal Data**

When you visit our website, our web server automatically stores your IP, the address of the web page you visited, your browser type and settings, the date and duration of your access, and how you used this website. Apart from this information, personal data will be stored only if you voluntarily submit such data, for example as part of a contact form, survey, application or for execution of a contract.

### **Use of Personal Data**

Roband uses your personal data only to the extent necessary for the purpose of technical administration of the website, customer management and occasional marketing. The collection of personal data by and/or the transfer of personal data to government institutions and authorities shall occur only within the scope of compulsory national legal requirements. We require our employees and agents to maintain confidentiality and comply with our code of conduct.

### **Right to Information**

At your request, Roband will notify you in writing and as quickly as possible in accordance with applicable law regarding whether we have saved your personal data, and if so, what data has been saved. If incorrect information has been saved despite our efforts to ensure the accuracy and topicality of data, we shall correct such information at your request.

### **Security**

Roband uses technical and organisational security measures to protect your data against accidental or intentional manipulation, loss, destruction or access by unauthorised persons. Our security measures are being continuously improved in accordance with technological developments.
